
Neuralgia of the Heart

Vanquished by Dr. Miles' Remedies.

MR. SIDLEY, of Torrington, Conn., suffered from just such a complication of diseases as the extensive experience and investigations of Dr. Miles have proven, result from impairment of the nervous system. Mr. J. B. Sidley writes Oct. 25, 1895: "My wife was taken sick with neuralgia of the heart, nervous exhaustion and liver trouble. Although attended by two physicians she grew worse, until she was at death's door. I then began giving her Dr. Miles' Restorative Nervine and Dr. Miles' New Heart Cure, and she improved so wonderfully from the first that I at once dismissed the physicians. She now eats and sleeps well and does her own housework. We have recommended your remedies to a great many in our city, and every one has been very much benefited by them."

DR. MILES' REMEDIES ARE SOLD BY ALL DRUGGISTS UNDER A POSITIVE GUARANTEE. First bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants.

The republican party fought hard against the Wilson Gorman revenue measure. The party never believed that such a law was in the interest of the people. Experience has proved that it was unwise and therefore disastrous to industrial progress. It is almost universally believed that with the McKinley administration and a proper revision of the tariff will come better times.

The senate yesterday defeated the bill for establishing a new intermediate prison to be used as a reformatory prison for young and first convicts. This does not mean necessarily that the principle of the bill is rejected for the same result can be secured by separating the inmates of the two prisons we now have and using one of these as such a reformatory and the other as the regular penitentiary convicts who are older and more confirmed in their habits.

Now is not an opportune time for the increase of salaries of public officials. Business men have been compelled in many instances to reduce the wages of employees during the past three years. Their business has not warranted even the old scale. While these conditions exist the salaries of public officials should not be advanced. Therefore the legislature should be very slow to enact such a law as the one proposed by the county officers' associations. If there are any men holding county offices who can't afford to serve at present salaries let them resign. Their places can be filled.

To-day congress formally canvasses the vote for president and vice president. The canvass will not change the results which have been known for some time but we give here the statistical summary of the contest which will be officially proclaimed to-day:

	McKinley	Bryan
Popular vote	7,105,909	6,454,943
Electoral vote	271	176
States	23	22
Total popular vote	13,575,653	
McKinley over Bryan	651,016	
McKinley over all	338,235	
National Democratic vote	132,870	
Prohibition vote	131,878	
Socialist labor vote	36,290	
Popular vote, 1892	12,501,321	
Increase in four years	1,284,332	

The next step by which the will of the people is made manifest will take place on the 4th day of March, when William McKinley will enter upon the duties to which he has been chosen by the vote of his fellow citizen.

CLEARSPRING.

Dr. T. J. Richards is on the sick list.

Born to Wm. McClary and wife Saturday, February 6, 1897, a girl.

Born to D. H. George and wife Monday, February 8, 1897, a boy.

A good many from here attended Mrs. Martha Owens' sale Saturday.

Mrs. Josephine Tanner will have a sale some time next month.

Christian Brannaman went to Browns-town a couple of days lost week on business.

Two boys were examining a shot gun one day last week in D. H. George's store. It was accidentally discharged, but with no other bad effects than making a hole through the ceiling and roof.

George Shanklin's Funeral.

WASHINGTON, Feb. 10.—The funeral of George W. Shanklin, for many years editor of the Evansville (Ind.) Courier, who died Saturday, took place yesterday at the residence of Justice Harlan, Rev. Dr. Radcliffe officiating. Final obsequies will be at Evansville, Ind. The pallbearers were: Senator Turpie, Justice Brewer, General J. W. Foster, Representative Hemenway, O. C. Stanley and J. W. Allison.

Ex-Editor Killed.

NEWARK, O., Feb. 10.—A. B. Clark, for many years editor of the Daily American of this city, was killed yesterday by a railroad train. He was 72 years old and had retired from newspaper work three years ago.

Twelve Men Killed.

LONDON, Feb. 10.—Through the collapse of the scaffolding of a viaduct on a railroad in Cornwall yesterday 12 men fell a distance of 150 feet and were killed.

Almost Fatal.

"The water wasn't scalding she throwed at you, was it, pardner?" asked Everett Wreath, who had done the waiting at the gate while Dismal Dawson had made "the play for the poke out."

"No," said Mr. Dawson, "it was scalding. It was soap suds."—Indianapolis.

Repudiated.

"Go!"

The form of the young and beautiful girl was drawn up to its full height, and quivering with rage she pointed to the door. "You told me it would be!"

With a commanding gesture she handed him back the ring he had just tendered her.

"At least three carats."—Detroit Free Press.

A few months ago, Mr. Byron Every, of Woodstock, Mich., was badly afflicted with rheumatism. His right leg was swollen the full length, causing him great suffering. He was advised to try Chamberlain's Pain Balm. The first bottle of it helped him considerably and the second bottle effected a cure. The 25 and 50 cent sizes are for sale by C. W. Milhous.

FREETOWN.

Health is generally good in this vicinity.

George McKain, sr., is very sick at this writing.

Several from here are attending court at Kurtz to-day.

The schools in this township will close about Feb. 25th.

George Reboot, of Houston, attended church here Sunday night.

Rich Manuel has commenced cutting a fine lot of timber for Isaac Smith.

Work on the U. B. church is at a standstill on account of the continued bad weather.

Chas. Smith after a pleasant trip through Illinois and Missouri returned home Sunday.

The continued cold weather has enabled our ice dealers to fill their houses with thick clear ice.

Miss Myrtle Spurgeon arrived home last week after an absence of several weeks visiting relatives in Kansas.

David Wheeler is building a nice dwelling in Jones' addition. Gradually the two towns are coming together.

Several of our boys are talking of emigrating to northern Illinois to engage in farm work the coming summer.

We have information from a reliable source that the E. & R. will begin running a passenger train about March 1st.

As the day of election draws near it seems more certain that our people will decide to have good roads through the township.

The opera house was crowded to its full capacity last Friday on account of a damage suit for personal injuries received by Mrs. William Bickley in being run down by a horse ridden by Lawrence Denny.

A Good Investment.

On receipt of ten cents, cash or stamps, a generous sample will be mailed of the most popular Catarrh and Hay Fever Cure (Ely's Cream Balm) sufficient to demonstrate its great merit. Full size 50c.

ELY BROTHERS,

56 Warren St., New York City.

I suffered from Catarrh three years; it got so bad I could not work; I used two bottles of Ely's Cream Balm and am entirely well; I would not be without it.—A. C. Clarke, 341 Shawmut Ave., Boston.

HOUSTON.

The sick are Prof. T. N. Pruitt and Mrs. A. J. Lucas.

This changeable weather is very disagreeable and unhealthy.

Lagrippe is raging in this vicinity and seems to be a general complaint.

Mrs. Fletcher Hoover, of Maumee, has had a severe attack of pneumonia.

Adam Sears, of Bedford, who has been here for some time trying to sell his timber, returned home last Sunday.

The Salt Creek township teacher's institute will meet at Freetown next Saturday, it being the last of the season.

Schools of this township will generally close in two or three weeks, as the term in this township is only eighty-nine days.

We are needing gravel roads in this township very much, and if the intelligent citizens want to benefit themselves and all other people of the country they will surely vote for the gravel road this coming election. It will be held on the 27th of February and we want the vote of the entire township in favor of good roads.

HAYDEN.

Mrs. W. S. Brown is some better.

Wm. Wells is improving slowly.

P. B. Ewan organized an order of Grange at Marion last Saturday.

Ed Simons who fell while hunting breaking his arm, is improving.

Little Murriel, daughter of C. J. B. at, is very sick with an abscess in the throat.

Madam Rumor says we can note the marriage of one of our leading young men in the near future.

Geo. Kelch has commenced house-keeping on the Gephardt farm, better known as the Carly farm.

Fred St. John is all smiles. A young voter at his house and Fred says it is a true blue republican.

Rev. Quick who has been the pastor of the Baptist church here for the past four years, preached his farewell sermon Sunday night and will commence work with the Vernon church the first of next month. He has many warm friends who regret to see him go and who wish him success in his new field.

A GOOD LETTER.

From the Clerk of the Circuit Court.

FERNANDINA, Fla., Feb. 28, 1896.

Dear George.—Please send for a bottle of Chamberlain's Cough Remedy. I would not feel easy if I knew there was none of this valuable Remedy in the house. I have given it a fair test and consider it one of the very best remedies for croup that I have ever found. One dose has always been sufficient although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children.

Yours Respectfully, Geo. E. Wolfe.

ANNA IVOR'S REQUEST.

Personal letters reach Mrs. Pinkham by thousands; some asking advice, and others, like the following, telling of what Lydia E. Pinkham's Vegetable Compound has done and will ever continue to do in eradicating those fearful

female complaints so little understood by physicians.

All womb and ovarian troubles, irregularities, whites, bearing-down pains, displacements, tendency to cancer and tumor are cured permanently.

"I feel as if I owed my life to your Vegetable Compound. After the birth of my babe I was very miserable. I had a drawing pain in the lower part of my bowels, no strength, and a terrible backache. Every day I failed. My husband said if I would try a bottle of your Vegetable Compound, he would give it for me. The change was wonderful. After I had taken three bottles, I was well and growing stout. It is a pleasure for me to write this to you. I only ask women in any way afflicted with female troubles to try it."—Mrs. ANNA IVOR, Pittsford Mills, Rutland Co., Vt.

What Marco Polo Did.

Marco Polo was the first traveler to trace a route across the whole length of Asia, says one of his biographers, "describing kingdom after kingdom that he had seen with his own eyes." He was the first traveler to explore the deserts and the flowering plains of Persia, to reveal China with its mighty rivers, its swarming population and its huge cities and rich manufactures; the first to visit and bring back accounts of Tibet, Laos, Burma, Siam, Coochin China, Japan, the Indian archipelago, Ceylon, farther India and the Andaman Islands; the first to give any distinct account of the secluded Christian empire of Abyssinia; the first to speak even vaguely of Zanzibar, Madagascar and other regions in the mysterious south and of Siberia and the Arctic ocean in the terrible and much dreaded north. Although centuries have passed since young Marco Polo grew to man's estate while treading his dangerous way among these distant lands, we must still look back to his discoveries for much that we know about those countries; for we have learned nothing new of many of them since his time.—Noah Brooks in St. Nicholas.

US TREASURY

Not less than \$4,500,000,000, or an annual average of \$150,000,000 a year during 30 years past, has been paid out to foreign ships for ocean transportation. Is it any wonder that we are called upon to export gold to Europe? We can stop doing this by building up the American mercantile marine, by carrying our own freight and paying our own gold to our own shipowners.

Bullock, Deputy Jay Robinson, Dr. Alvin Duvall and Captain Leon Hill received less serious injuries.

Low Price for Steel Rails.

CHICAGO, Feb. 10.—Steel rails are being sold at the lowest price ever known in America. The steel rail pool has collapsed, and \$15 a ton was asked for rails in Chicago yesterday, and in Pittsburgh the rate was \$15.25 a ton. Monday the price in Chicago was \$26 and in Pittsburgh it was \$25.

HOUSES BUILT IN TREES.

New Guinea Claims the Distinction of Furnishing This Unique Spectacle.

Man was undoubtedly at one period of his existence an arboreal animal. He had much to do with "the trees of the garden." In some places and as represented by some races he still lives among them.

The natives of New Guinea climb like monkeys and travel for long distances from one tree to another without descending to the ground. The birds build little fairylike cabins on the ground, but the people construct their houses in the top of the tallest forest trees. First a native, having climbed the great trunk of the tree or cedar or oak tree he has selected, begins by cutting off some of the branches the right length to support a platform of bamboo on which his house is to rest. You would wonder how he could do anything with the tools he uses if you should see them. He has no saw or steel edged ax, but only a sort of tomahawk made of stone and knives of bone or hard wood.

When, however, he has in some way managed to get the limbs of his tree so cut and fashioned as to support his house, his hardest work is done. The house itself is soon built and is made of bamboo strips and thatched with palm leaves. All parts are firmly lashed together with strips of rattan palm, a very tough vine, used by the natives in place of ropes. It is not a large house, though it sometimes contains several rooms, but it is a safe and secure retreat for the women and children in case of a sudden attack by hostile tribes.

The house is reached from the ground by a long ladder or inclined plane, made of woven vines. In case an enemy appears the ladder is drawn up, and the man and his family and the pig are safe within the house. The elevation not only secures the household from wild beasts and from the ants that roam the country, seeking what they may devour, but also from disease germs, which, like those of yellow fever, do not rise above a certain level. The breeze, too, rocks the house gently, like a cradle, and sets the fresh air into circulation, making it delightfully refreshing after the sultry heats below.

If you should climb the long ladder and peep in at the door, you will find the family, perhaps, all asleep or sitting about the floor eating yams, coconuts and bananas, and sharing them with their pet pigs, parrots or poultry. You will find there no pictures, toys or playthings, such as even the poorest children among us possess; no music and no books, no furniture in the room, not even a bed and no mats on the floor.

Many a true built nest is constructed with more art and is more comfortable for the little ones who are born in it, and is far prettier than the rude huts of the wild men of New Guinea.—Philadelphia Inquirer.

THE SUN'S DISTANCE.

Would Take Five Hundred Years to Cover It at a Swift Steamer's Pace.

"The sun is about 93,000,000 miles distant from the earth," writes Alden W. Quimby in Ladies' Home Journal. "It varies through the year because the earth's orbit is elliptical, and the sun is at one focus of the ellipse. The earth is more than 3,000,000 of miles nearer the sun in December than in June, at which time the latitudes south of the equator receive his direct rays and experience the great heat of their summer."

"Let us try to comprehend the figures stated. The other day two racers of the sea proudly lowered the record of transatlantic passage. Could they turn their prow to the sun, and drive their great engines day and night in the crossing of the ether main, it would be 500 years before they could reach harbor."

"Most persons have noticed the appreciable interval of time between the stroke of an ax at a distance and the resultant sound. Could we hear the sound of a solar explosion we would know of the explosion had occurred 14 years before. Perhaps the most striking illustration of this is that which imagines a little child to have an arm long enough to reach the sun. The child might thrust its fingers into the seething fires, but it would grow up to maturity and calmly descend into the valley of extreme old age, blissfully unconscious of any pain from the burning; in fact, it would require another such lifetime to bring the news to the brain."

Birds That Feign Death.

One of the most remarkable devices resorted to by wild things for their own protection is that of shamming death. A beetle or spider will double in its legs and lie as if dead. The reason for this is obvious. It may then be passed over, mistaken for a bit of leaf or stick. But it is more difficult to account for this practice in birds.

A moor hen or land rail will feign death, lying in the hand perfectly limp and to all appearances unconscious. It has been suggested that the idea is that, being already dead, the captor will not trouble to kill them.

More probably it is merely a ruse in the hope that by lying still they may be forgotten and crawl off presently unobserved. Another reason is suggested by the fact that cats and the cat tribe do not often touch their prey unless it moves.—London Standard.

A Double Purpose.

Get into the habit of walking with the eyes cast thoughtfully on the ground. It gives people the impression that you are a deep thinker, and you may be able to pick up articles of value that others have lost.—Athenian Globe.

Companions of the noble orders take rank immediately after the knights of the same order, their precedence among themselves being arranged by a complicated but well understood system.

Many books require no thought from those who read them, and for a simple reason—they write no such demand upon those who write them.—Colton.

NOVELTIES.

Chiffon covers of cut glass are positively decorative and beautiful objects. The miniature, which is popular in everything from belts to lockets, has an important place on fans.

Hall clocks, with oak or mahogany cases and trimmed with bronze ornaments, are out in a variety of new and pleasing designs.

Gorgeous chateaux bags are made in shadow silks with enamel tops, and have fine twisted chain with hook for securing them to the dress belt.

CHICAGO'S BUSINESS.

GREAT FALLING OFF IN HER WHOLESALE SALE TRADE SINCE 1892.

Comparison of Sales Made Under the Protection Policy and the Free Trade Movement—Shrinkage of Revenue—Loss From the Wilson Bill.

The city of Chicago sold in the last four years the following totals as a result of her wholesale business:

1891, \$517,166,000.
1892, \$573,215,000.
1893, \$519,350,000.
1894, \$464,000,000.

It will be seen from the foregoing that the year 1894 makes the worst showing for the city of Chicago than any of the past four years. Even in the year 1893, with the great influx of visitors caused by the World's fair, she was not able to maintain the volume of trade against that of 1892. The Republican policy of protection and the prosperity brought to all parts of our country in 1892 have produced results which are hard to reach by way of comparison. Especially is it true under what is popularly known as the tariff reform movement.

REVENUE COLLECTIONS.

The internal revenue is one of the best barometers of the financial condition of the people of the United States possible because all of its taxes, with the exception of those levied upon oleomargarine are levied upon those articles of luxury that are not frequently dispensed with by man—namely, liquors, beer, cigars and tobacco. When the country is prosperous, the average man smokes his cigars without regard to the prices at which they are sold. The same must be said of the drink habit. The general depression of the last year finds its mark in many sections of the country. Taking Chicago as an example, we find that there has been a falling off in that one office of \$800,000 in the receipts for the last year. If the tariff reformers were wise enough to take note of the foregoing fact, they might have provided a wider margin for the operations of the McKinley law in the collection of customs duties. But we find that they have made about the same mistake in the collection of customs that was made in the collection of internal revenue.

The duties collected on imported merchandise at Chicago during the last four years are quite as significant as those of the internal revenue, showing a great falling off under the operation of the Wilson law:

1891, \$5,983,589.
1892, \$7,490,578.
1893, \$8,299,223.
1894, \$5,395,249.

It will be seen that for the year 1894 more than \$8,000,000 were collected, which is accounted for by the great excess of foreign material entered for the World's Columbian exposition. In order to make a true comparison it will be seen that the duties for 1894 are below those of 1891, and the amount collected in 1894, when compared with 1892, shows a falling off of \$2,195,329. Thus again the greater prosperity of 1892, after the operation of a protective tariff, with that of 1894, under the Wilson bill, shows an absolute loss of more than \$2,600,000 to the government from one city or one port of entry alone. The people of the United States are learning wisdom, but it is in the dark school of experience whereby they must indeed become wise, and yet the people must wait two years or more before these blunders can be corrected.

National Taxes.

Were the people of the United States burdened with taxation under the operation of the McKinley law as compared with the taxes assessed and collected in other countries of the world? It will be seen by the following table that the United States stands at the bottom of the list for the lowest sum paid during the years intervening between 1882 and 1890 of all taxes collected. If \$5.65 produced such enormous misery and gave rise to the terrible stories of crime and robbery which fell from the lips of Democratic orators, what must and could have been said of the people of Great Britain, France and other countries? Read the figures and ponder:

Average proportion of customs and internal revenue paid by each person in the countries mentioned below during the years 1882 to 1890:

Australia.....\$15.00 Portugal.....\$7.14
Argentina.....13.50 Germany.....6.62
France.....13.20 Austria.....6.62
Great Britain.....9.70 Denmark.....6.22
Holland.....9.08 Canada.....6.62
Italy.....8.88 Belgium.....6.71
Spain.....8.88 United States.....5.65

Live Stock Shrinkage.

The total valuation of the stock received and shipped from the city of Chicago in 1894 shrunk in value below that of 1893 the sum of \$228,193,029. This means the lower prices which were paid for the product of the farm throughout the great west and northwest, where a market was found in Chicago for live stock. The farmers of this section of the country will certainly be very careful about supporting a tariff reform movement in the future which takes from them \$228,000,000 of shrinkage in value in one year, to say nothing of the shrinkage of values that have occurred in all the home districts and local markets. Better have a return of McKinleyism or any other form that will give us back the prosperity of 1892, when prices were good and everybody had the money with which to buy.

Wheat Prices.

The fluctuations in the price of cash wheat for the year 1894 show that 63 1/2 cents was the highest point reached, in the month of April, the lowest being 31 1/2 cents, in the month of September.

Corn's Highest Point.

CLOSED THE DOORS

The Senate Spends the Day Considering the Arbitration Treaty.

IMMIGRATION BILL MODIFIED.

Conference Committee's Report Passed the House by the Overwhelming Majority of 217 to 33—Two Pension Bills Passed Over the President's Veto—Other Washington News.

WASHINGTON, Feb. 10.—The open session of the senate yesterday was wholly perfunctory and after transacting some routine business the doors were closed and an executive session continued throughout the day.

The bill was passed to aid in the improvement of the navigable channel of the South Pass by closing the existing crevasse in Paa L'Ontre, in the Mississippi river.

IMMIGRATION BILL.

Conference Report Passes the House. Bills Passed Over the Veto.

WASHINGTON, Feb. 10.—The house yesterday agreed to the conference report on the immigration bill by an overwhelming majority (217 to 33) and passed two more pension bills over the president's veto. The modifications of the immigration bill contained in the conference report by which an intending immigrant was required to be able to read and write "the English or another language," and which permitted the illiterate wife and minor children to accompany an eligible immigrant removed the main opposition to the bill, but Messrs. Mahoney (Rep. N. Y.), Maguire (Dem., Cal.) and Keifer (Rep., Minn.), opposed the whole theory of the bill on general principles. Messrs. Bartholdt (Rep., Mo.) and McCall (Rep., Mass.) both spoke in favor of the bill as modified.

The beneficiaries of the pension bills passed over the veto were both of the class known as "remarried widows." Mr. Cleveland has disapproved a number of these bills but he has also allowed several to become laws without his signature.

A bill was passed to place the naval officer on the board appointed to examine the deep water harbor on the southern coast of California on the same footing with the other members of the board in the matter of per diem allowance.

ARBITRATION TREATY.

Two Important Amendments Offered in Executive Session.

WASHINGTON, Feb. 10.—The most important developments concerning the consideration of the arbitration treaty by the senate in executive session yesterday were the offering of an amendment by Senator Morgan of Alabama, providing for the abrogation of the Clayton-Bulwer treaty and the speech by the same senator in favor of this proposition. Senator Morgan said it was no longer binding on either nation nor was it of any use or value to this nation, though it might be of great importance to Great Britain in case the Nicaragua canal was constructed.

Another important amendment was offered by Senator Bacon of Georgia. It provides for a modification of article eight so as to relieve the southern states under any obligations that might arise under the bonds issued in the reconstruction days. The article as it now stands might render it possible to make these bonds, when held by subjects of Great Britain, the object of arbitration.

MICHIGAN LUMBERMEN.

Those Opposed to New Duties Visit the Ways and Means Committee.

WASHINGTON, Feb. 10.—The ways and means committee republicans have been interviewed during the past two days by a delegation of Michigan lumbermen who are opposed to the duty of 2½ which would be placed on white pine in the new tariff bill. The Michigan men have purchased stumpage privileges in Canada and are opposed to the increase of duties on white pine, and fear that by the imposition of higher crown taxes by their Canadian property. They want the committee to leave the white pine where it was in the McKinley act or to protect them against possible retaliation by some provision in the bill.

SOLDIERS' HOMES.

WASHINGTON, Feb. 10.—The secretary of war yesterday sent to the house a report of the annual inspection of the several branches of the national home for volunteer soldiers. During the year there were 1,771 deaths out of a membership of 23,684. The branches are generally in good condition. In no particular, says the report, is deterioration noted, and wherever any change is being made it seems an improvement.

OPEN LETTER TO WOMEN.

It Urges Their Influence in Favor of the Arbitration Treaty.

NEW YORK, Feb. 10.—An open letter to the women of the United States urging them to use all means in their power to further the passage of the arbitration treaty with Great Britain has been issued. It is signed by the following well known women: Ellen M. Henriotin, Alice Freeman Palmer, Louisa Lee Schuyler, Margaret Sangster, Mary Mapes Dodge, Grace H. Dodge, Maud Ballington Booth and others. In the letter the following paragraph occurs: "The mothers, the wives and the homes of our land have the deepest interest in the substitution of law for war. In times of conflict they are the keenest sufferers and while the nation's honor is dear to them whatever tends to settle disputes by reason and law rather than by warfare, demands their heartiest endorsement."

PORTER AND HANNA.

They Held a Conference at Cleveland Relative to the Inauguration.

CLEVELAND, O., Feb. 10.—General Horace A. Porter of New York, who is to act as grand marshal at the inauguration ceremonies of President-elect McKinley, was among the callers at the office of M. A. Hanna yesterday. Later General Porter, Mr. Hanna and Colonel George A. Garretson, chairman of the committee on inaugural transportation, held a long conference. Plans for the transportation of the presidential party, the parade and

GENERAL HORACE PORTER.

A caution dispatch says General Horace Porter of New York came to Canton on the late train last night after having spent the day in consultation with Chairman Hanna in Cleveland on matters connected with the inauguration. He was met at the station and taken to the McKinley home where he remained a guest all night. He is here to confer with Major McKinley on some of the details of the inauguration.

CLEVELAND DINED.

AROUND THE GLOBE.

Reported That Cleveland Will Make a Tour of the World.

TOLEDO, O., Feb. 10.—A passenger agent of the Canadian Pacific now in this city is authority for the statement that President Cleveland will take a trip around the world. The president and his party will go to the coast over the Canadian Pacific road, and Division Passenger Agent Sheehy of that line will conduct the party in person. The president desires to start as soon as possible after the inauguration of McKinley. He desires to avoid public functions, and intends to make the tour as a private citizen. Private Secretary Thurber and several members of his cabinet are expected to accompany him. Mrs. Cleveland may accompany the party, but that matter has not been fully decided yet.

CHINAMEN'S FAVORITE ROUTE.

MALONE, N. Y., Feb. 10.—The boundary line between the United States and Canada, north of Malone seems to be a favorite route by which Chinamen undertake to steal into the United States. Recently Deputy Marshal Flinn captured one celestial three miles north of Malone and his extradition is set for Feb. 11 at this place. On Saturday last Deputy Flinn captured two more at Hogsburg, who were trying to

FINISH THE RACE.

Who wins in the race? Is it a sick man? Is it a man who is weak? Is it a man whose blood is impure? An athlete trains for every race. The best athletes train all the time. They are always in perfect condition. It is pretty safe to say that the best man will always win. If a man's blood is pure and rich, there can be no such thing as a sick man. If his body isn't strong, he will never finish the race. He must look first for a healthy, strong body, because a body makes and supports the brain. If the heart pumps impure blood into the brain, you cannot expect the man to be clear-headed, you cannot expect him to accomplish much. Neuralgia of the Heart

Vanquished by Dr. Miles' Remedies.

MRS. SIDLEY, of Torrington, Conn., suffered from just such a complication of diseases as the extensive extension of Dr. Miles' Remedies have proven, result from impairment of the nervous system. Mr. J. B. Sidley writes Oct. 26, 1895: "My wife was taken sick with neuralgia of the heart, nervous exhaustion and liver trouble. Although attended by two physicians she grew worse, until she was at death's door. I then began giving her Dr. Miles' Restorative Nervine and Dr. Miles' Heart Cure, and she improved so wonderfully from the first that I at once dismissed the physicians. She now eats and sleeps well and does her own housework. We have recommended your remedies to a great many in our city, and every one has been very much benefited by them." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants. DR. The republican party fought hard against the Wilson-Gorman revenue measure. The party never believed that such a law was in the interest of the people. Experience has proved that it was unwise and therefore disastrous to industrial progress. It is almost universally believed that with the McKinley administration and a proper revision of the tariff will come better times.

The senate yesterday defeated the bill for establishing a new intermediate prison to be used as a reformatory prison for young and first convicts. This does not mean necessarily that the principle of the bill is rejected for the same result can be secured by separating the inmates of the two prisons we now have and using one of these as a reformatory and the other as the regular penitentiary convicts who are older and more confirmed in their habits.

Now is not an opportune time for the increase of salaries of public officials. Business men have been compelled in many instances to reduce the wages of employees during the past three years. Their business has not warranted even the old scale. While these conditions exist the salaries of public officials should not be advanced. Therefore the legislature should be very slow to enact such a law as the one proposed by the county officers' associations. If there are any men holding county offices who can't afford to serve at present salaries let them resign. Their places can be filled.

To-day congress formally canvasses the vote for president and vice president. The canvass will not change the results which have been known for some time but we give here the statistical summary of the contest which will be officially proclaimed to-day:

	McKinley	Bryan
Popular vote	7,105,909	6,454,943
Electoral vote	271	176
States	23	22
Total popular vote	13,560,852	12,909,886
McKinley over Bryan	651,016	
McKinley over all	132,553	
National democratic vote	132,553	
Prohibition vote	131,578	
Socialist labor vote	30,390	
Popular vote, 1892	12,561,351	
Increase in four years	1,000,000	

The next step by which the will of the people is made manifest will take place on the 4th day of March, when William McKinley will enter upon the duties to which he has been chosen by the vote of his fellow citizen.

CLEARSPRING.

Dr. T. J. Richards is on the sick list. Born to Wm. McClary and wife Saturday, February 6, 1897, a girl.

Born to D. H. George and wife Monday, February 8, 1897, a boy.

A good many from here attended Mrs. Martha Owens' sale Saturday.

Mrs. Josephine Tanner will have a sale some time next month.

Christian Brannaman went to Browns-town a couple of days last week on business.

Two boys were examining a shot gun one day last week in D. H. George's store. It was accidentally discharged, but with no other bad effects than making a hole through the ceiling and roof.

George Shanklin's Funeral.

WASHINGTON, Feb. 10.—The funeral of George W. Shanklin, for many years editor of the Evansville (Ind.) Courier, who died Saturday, took place yesterday at the residence of Justice Harlan, Rev. Dr. Radcliffe officiating. Final obsequies will be at Evansville, Ind. The pallbearers were: Senator Turpie, Justice Brewer, General J. W. Foster, Representative Hemenway, O. O. Stealey and J. W. Allison.

Ex-Editor Killed.

NEWARK, O., Feb. 10.—A. B. Clark, for many years editor of the Daily American of this city, was killed yesterday by a railroad train. He was 72 years old and had retired from newspaper work three years ago.

Twelve Men Killed.

LONDON, Feb. 10.—Through the collapse of the scaffolding of a viaduct on a railroad in Cornwall yesterday 12 men fell a distance of 150 feet and were killed.

Almost Fatal.

"The water wasn't scaldin she throwed at you, was it, pardner?" asked Everett Wroest, who had done the waiting at the gate while Dismal Dawson had made "the play for the poke out." "No," said Mr. Dawson, "it was soap." It was soap. —Indianapolis.

Repudiated.

"Go!" The form of the young and beautiful girl was drawn up to its full height, and quivering with rage she pointed to the door. "You told me it would be!" With a commanding gesture she handed him back the ring he had just tendered her. —"At least three carats." —Detroit Free Press.

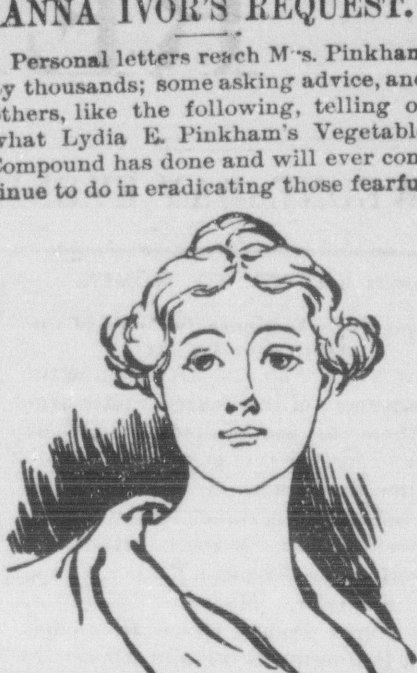

A few months ago, Mr. Byron Every of Woodstock, Mich., was badly afflicted with rheumatism. His right leg was swollen the full length, causing him great suffering. He was advised to try Chamberlain's Pain Balm. The first bottle of it helped him considerably and the second bottle effected a cure. The 25 and 50 cent sizes are for sale by C. W. Milhouse.

ANNA IVOR'S REQUEST.

Personal letters reach M. S. Pinkham by thousands; some asking advice, and others, like the following, telling of what Lydia E. Pinkham's Vegetable Compound has done and will ever continue to do in eradicating those fearful

female complaints so little understood by physicians.

All womb and ovarian troubles, irregularities, whites, bearing-down pains, displacements, tendency to cancer and tumor are cured permanently.

"I feel as if I owed my life to your Vegetable Compound. After the birth of my babe I was very miserable. I had a drawing pain in the lower part of my bowels, no strength, and a terrible headache. Every day I failed. My husband said if I would try a bottle of your Vegetable Compound, he would get it for me. The change was wonderful. After I had taken the first half bottle I began to have great faith in it. When I had taken three bottles, I was well and growing stout. It is a pleasure for me to write this to you. I only ask women in any way afflicted with female troubles to try it."—MRS. ANNA IVOR, Pittsford Mills, Rutland Co., Vt.

What Marco Polo Did.

Marco Polo was the first traveler to trace a route across the whole length of Asia, says one of his biographers, "describing kingdom after kingdom that he had seen with his own eyes." He was the first traveler to explore the deserts and the flowering plains of Persia, to reveal China with its mighty rivers, its swarming population and its huge cities and rich manufactures; the first to visit and bring back accounts of Tibet, Laos, Burma, Siam, Ceylon, China, Japan, the Indian archipelago, Ceylon, farther India and the Andaman islands; the first to give any distinct account of the secluded Christian empire of Abyssinia; the first to speak even vaguely of Zanzibar, Madagascar and other regions in the mysterious south and of Siberia and the Arctic ocean in the terrible and much dreaded north. Although centuries have passed since young Marco Polo grew to man's estate while treading his dangerous way among these distant lands, we must still look back to his discoveries for much that we know about those countries; for we have learned nothing new of many of them since his time. —Noah Brooks in St. Nicholas.

A Good Investment

On receipt of ten cents, cash or stamps, a generous sample will be mailed of the most popular Catarrh and Hay Fever Cure (Ely's Cream Balm) sufficient to demonstrate its great merit. Full size 50c.

ELY BROTHERS,

56 Warren St., New York City.

I suffered from Catarrh three years; it got so bad I could not work; I used two bottles of Ely's Cream Balm and am entirely well; I would not be without it.—A. C. Clarke, 341 Shawmut Ave., Boston.

HOUSTON.

The sick are Prof. T. N. Pruitt and Mrs. A. J. Lucas.

This changeable weather is very disagreeable and unhealthy.

Lagrippe is raging in this vicinity and seems to be a general complaint.

Mrs. Fletcher Hoover, of Maumee, has had a severe attack of pneumonia.

Adam Sears, of Bedford, who has been here for some time trying to sell his timber, returned home last Sunday.

The Salt Creek township teacher's institute will meet at Freetown next Saturday, it being the last of the season.

Schools of this township will generally close in two or three weeks, as the term in this township is only eighty-nine days.

We are needing gravel roads in this township very much, and if the intelligent citizens want to benefit themselves and all other people of the country they will surely vote for the gravel road this coming election. It will be held on the 27th of February and we want the vote of the entire township in favor of good roads.

HAYDEN.

Mrs. W. S. Brown is some better.

Wm. Wells is improving slowly.

P. B. Ewan organized an order of Grange at Marion last Saturday.

Ed. Simons who fell while hunting breaking his arm, is improving.

Little Murriel, daughter of C. J. B. aty, is very sick with an abscess in the throat.

Madam Rumor says we can note the marriage of one of our leading young men in the near future.

Geo. Kelsh has commenced house-keeping on the Gephardt farm, better known as the Carly farm.

Fred St. John is all smiles. A young voter at his house and Fred says it is a true blue republican.

Rev. Quick who has been the pastor of the Baptist church here for the past four years, preached his farewell sermon Sunday night and will commence work with the Vernon church the first of next month. He has many warm friends who regret to see him go and who wish him success in his new field.

A GOOD LETTER

From the Clerk of the Circuit Court.

FERNANDINA, Fla., Feb. 28, 1896. Mr. J. GEORGE SUMNER, Druggist, City. Dear George.—Please send for a bottle of Chamberlain's Cough Remedy. I would not feel easy if I knew there was none of this valuable Remedy in the house. I have given it a fair test and consider it one of the very best remedies for croup that I have ever found. One dose has always been sufficient although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children. Yours Respectfully, GEO. E. WOLFE. Sold by C. W. Milhouse, Druggist.

Cascarets stimulate liver, kidneys, and bowels. Never sicken, weaken or gripe.

From the Clerk of the Circuit Court.

FERNANDINA, Fla., Feb. 28, 1896. Mr. J. GEORGE SUMNER, Druggist, City. Dear George.—Please send for a bottle of Chamberlain's Cough Remedy. I would not feel easy if I knew there was none of this valuable Remedy in the house. I have given it a fair test and consider it one of the very best remedies for croup that I have ever found. One dose has always been sufficient although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children. Yours Respectfully, GEO. E. WOLFE. Sold by C. W. Milhouse, Druggist.

Cascarets stimulate liver, kidneys, and bowels. Never sicken, weaken or gripe.

ARE NOT PACIFIED

Weyler's False Statements in Regard to Pinar del Rio.

CUBANS STILL IN POSSESSION.

Captain General Failed to Tell What Became of the Seven Thousand Men, Horses, Guns and Ammunition—List of the Insurgent Forces in an Around the Alleged Pacified Province.

HAVANA, Feb. 10.—The various reports and statements of Captain General Weyler announcing the pacification of the province of Pinar del Rio and the almost complete disappearance of the insurgents in that part of the island are far from being borne out by facts. As intimated in these dispatches when the Spanish commander made the remark cited, if Pinar del Rio was as quiet as he alleged it to be, what has become of the arms, horses, ammunition, stores, etc., of the 7,000 men whom he admitted were under arms there?

As a matter of fact the insurgent forces in Pinar del Rio seems better off, more thoroughly equipped and disciplined than at any previous stage of the campaign. In support of this assertion the following statements have been gathered from the most reliable sources:

In the neighborhood of Catalina and Las Cuevas are the insurgent leaders Varona Rivero and Louis Perez, with about 1,200 men well armed and having plenty of ammunition, though poorly clad. In the Zone of Jaucia and Mula the insurgents' leader Lazo with some 600 men. Lazo is wounded in both arms. In the districts of Bayas, Rio del Medio, Mangos, Pena Blanca and Pan de Azucar are various groups of insurgents with a total of over 500 men under Vidal Ducazi.

At the heights of Gobernadora and the Sierra del Rosario the insurgents are under the command of Brigadier General Luis Rivero and the leaders Jose Manuel Barrio and Perico Delgado. They consist of infantry and some cavalry, estimated to number about 800 men. At Soroa is a force of insurgents under Antonio Nunez. Nunez, however, is also said to be wounded. At the Loma Heights is the Torre Beron band, and at Bayate and in the district of Punta Brava are the insurgents under Garraza and Lucas Martinez.

These forces alone, those of the known leaders of the insurgents in the field, are estimated to number about 5,000 men and yet the captain general claims that Pinar del Rio is "pacified." In addition to these forces is a strong body of insurgents which seems to have mysteriously disappeared from the neighborhood of Havana. The whereabouts of this force is attracting much attention and is known to be causing the Spanish staff considerable anxiety. The friends of the insurgents intimate that a big surprise is being prepared for Captain General Weyler when he tries to return to Havana.

Owing to the campaign of La Lucha thousands of persons are being vaccinated daily throughout the entire province. In spite of this about 5,000 cases of smallpox exist in Havana and during the last four days 30 persons, or 8 per cent of the entire mortality, have died from this disease. During the month of January at Jaraco alone, out of 362 deaths, 317 were due to smallpox. All the rumors published about prominent home rulers and former leaders of the 10-years war being engaged in treating for peace are entirely without foundation and are only inspired by the Diario de la Marina, and perhaps reproduced by some of the correspondents here.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alternative is felt. A prompt use of this medicine has often averted long and perhaps fatal biliousness. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness yield to Electric Bitters. 50c and \$1.00 per bottle at W. F. Peter's drug store.

HOME PEOPLE.

Again Come to the Front for a Home Cause.—The Public Library Benefit, at the Opera House, February 22, 1897.

The Washington's birthday entertainment for the benefit of the public library promises to be the best of the season. Not a common music and recitation entertainment but a real genuine, comedy-drama, entitled, "Under the Spell," will be presented by some of the best local talent obtainable, and all indications point to a grand success, not only as an entertainment, but also for a benefit. The play throughout sparkles with fun, wit and humor, Dutch and Irish comedy, while the vein of touching pathos ever keeps before the minds of the listener, the true sentiments of the play. It abounds with sparkling situations and thrilling climaxes. An institution that is growing like the library, requires money to keep it going, and the young people under the guidance of the president of the association, take this means of raising funds. As it is a popular institution the price of the admission to the play will be the popular one of 25 cents all over the house, excepting the boxes. They expect the public to contribute to this cause by enjoying an evening's entertainment the 22nd, and the business men to contribute their mite by taking an "ad" on their program. On the whole the young people deserve commendation for devising this means of raising funds and we have no doubt that the house will be well filled to witness their efforts in behalf of such a deserving cause. Cash-vassers will wait upon the public, and the coupons sold can be exchanged for reserved seats at Cox's next Monday.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract. "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with pneumonia succeeding lagrippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery it was quick in its work and highly satisfactory in results." Trial bottles free at W. F. Peter's drug store.

Sunday Observance.

The railroad corporations are not generally credited with any over-anxiety to promote Sabbath observance. Yet there are not a few of the leading roads of the country which recognize the value of the weekly day of rest, and do all they can to reduce to a minimum the running of Sunday trains. Col. W. W. Peabody, vice-president and general manager of the B. & O. S. W. is quoted as follows:

"The amount of running of freight and passenger trains on Sunday is confined to the lowest possible limit. It would be a pleasure if we could so arrange matters as not to turn a wheel on the Sabbath day. Personally, I do not believe it would be well to try to overrule the Almighty's regulation, which many years' experience has shown me to be very good, namely: 'Six days shalt thou labor and do all thy work.' I believe that every consideration demands that every citizen of America should have the Sabbath day to worship God according to the dictates of his conscience."

Mr. Ward L. Smith, of Frederickstown, Mo., was troubled with chronic diarrhoea for over thirty years. He has become fully satisfied that if it was only a question of a short time until he would have to give up. He had been treated by some of the best physicians in Europe and America but got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a bottle of it, the first dose helped him and its continued use cured him. For sale by C. W. Milhous, Druggist.
